Internal auditor

Course outline:

This two-day course will enable you to undertake internal audits and prepare companies for third party audits. It's delivered via a series of workshop-led discussions, presentations and an interactive case study. During the live case study, you will be given feedback and support to enable you to carry out an audit at your own workplace.

You will be assessed throughout the course (50%) and you will also need to undertake a workplace audit and submit an audit report for assessment (50%). You will need to gain a 75% pass for this assessment.

This course is part of the [BRC Global Standards Professional](#) recognition programme.

The course is aimed at:

- quality and technical managers;
- operations managers;
- staff responsible for managing an internal auditing schedule; and
- staff responsible for undertaking internal audits as required by BRC Global Standards.

At the end of the course you will:

- understand the roles and responsibilities of auditors;
- be able to plan and conduct an internal audit;
- know how to write concise, accurate and factual audit reports; and
- be able to undertake audit follow-up activities.

Due to circumstances surrounding COVID-19 this session has been approved by BRCGS to be delivered in a Virtual Format. All content utilized in this course was designed for a face to face session.

Root Cause Analysis

Course outline:

This one-day course will provide delegates with a thorough understanding of root cause analysis (RCA) to know its importance and be able to perform it competently. This is especially helpful when implementing some of the requirements in the BRC Global Standards.

This course is part of the [BRC Global Standards Professional](#) recognition programme.

The course is aimed at:

- quality and safety management staff at manufacturing, storage and distribution and retail sites;
- auditors; and
- consultants.

At the end of the course you will:

- be able to define root cause analysis;
- understand the difference between symptoms and root cause analysis (RCA);
- understand the role and importance of RCA in compliance with the BRC Global Standards;
- have explored some common methods for undertaking RCA; and
- be able to perform RCA and document it effectively.

Risk Assessment

Course outline:

This one-day course will provide delegates with a thorough understanding of risk assessment and enable them to use different risk assessment models. This is particularly useful when implementing product safety management systems onsite, and when implementing the requirements of the BRC Global Standards.

This course is part of the [BRC Global Standards Professional](#) recognition programme.

The course is aimed at:

- technical and quality personnel;
- auditors; and
- consultants.

At the end of the course you will:

- understand risk assessment terminology;
- be able to choose and use different risk assessment models for processes onsite; and
- understand what BRC Global Standards expects from a thorough risk assessment.

Validation And Verification

Course outline:

This one-day course will provide delegates with a thorough understanding of validation and verification so they know the level of detail required for each process and are able to use validation and verification in practice. This is especially helpful when implementing some of the requirements in the BRC Global Standards.

This course is part of the BRC Global Standards Professional recognition programme.

The course is aimed at:

- quality and safety management staff at manufacturing, storage and distribution and retail sites;
- auditors; and
- consultants.

At the end of the course you will:

- be able to define and understand the terms validation and verification;
- understand the level of detail required for each process;
- be able to use validation and verification in practice; and
- appreciate how validation and verification relate to conformance to the BRC Global Standards.

Due to circumstances surrounding COVID-19 this session has been approved by BRCGS to be delivered in a Virtual Format. All content utilized in this course was designed for a face to face session

Securing Your Supply Chain

Course outline:

This half-day course will provide delegates with an understanding of vulnerability assessment for food fraud and enable them to use techniques to better identify and mitigate risks associated to raw materials in the supply chain. The course covers the Vulnerability requirements for BRCGS Global Standards Food Safety.

The course is aimed at:

- purchasing, technical and quality personnel;
- auditors; and
- consultants.

At the end of the course you will:

- Understand vulnerability assessment requirements for BRCGS.
- Understand what is meant by the term 'food fraud'.
- Be able to identify the difference between vulnerability assessment, threat analysis critical control point and food defence.
- Understand the tools required to undertake a vulnerability assessment.

Food Defence PAS 96

Course outline:

This half day course provides an overview of the requirements of PAS 96:2017 'Guide to protecting and defending food and drink from deliberate attack'. The course covers economically motivated adulteration, malicious contamination, extortion and counterfeiting. It aims to assure the authenticity and safety of food by minimizing the chance of an attack and mitigating the consequences of a successful attack.

The course is aimed at:

- purchasing, technical and quality personnel;
- auditors; and
- consultants.

At the end of the course you will:

- Understand PAS 96:2017 & TACCP – Terms & Definitions
- Understand the difference between threat and vulnerability assessments
- Understand the requirements of Vulnerability and Threat Assessment Critical Control Point (TACCP)
- How Threat Assessment tools can be used for Vulnerability Assessment

BRCGS Approved Virtual Trainer

Agents and Brokers

Understanding the requirements for auditors

Course outline:

The aim of this two-day course is to ensure that prospective auditors of the Global Standard for Agents and Brokers Issue 2 have an in-depth and practical understanding of the format and requirements of the Standard, the protocol for the audit and actions following the audit.

The course is aimed at:

- BRCGS auditors who wish to add this Standard to their audit capabilities.

At the end of the course you will:

- be able to describe the scope of companies and products covered by the Standard;
- know what is required to comply with the requirements of the Standard;
- be able to prepare for an audit to the Standard; and
- understand the protocol for audits to the Standard.

Due to circumstances surrounding COVID-19 this session has been approved by BRCGS to be delivered in a Virtual Format. All content utilized in this course was designed for a face to face session.

Agents and Brokers

Understanding the Requirements for Companies

Course outline:

This one-day course is designed for agents and/or brokers, and those trading with them, who want to understand the scope and requirements of the Standard, the audit protocol and certification process.

The course is led by an experienced tutor, who will guide you through practical exercises to consolidate your learning.

Introduced in 2014, the Global Standard for Agents and Brokers provides essential certification for companies in the food and/or packaging supply chain that provide the services of purchase, importation or distribution of products.

Before the course you must have read and reviewed a copy of the Standard, which is available to download free of charge from the BRCGS Bookshop.

This course is part of the BRCGS Professional recognition programme.

The course is aimed at:

- Agents and brokers who want to know how to implement the requirements of the Standard;
- retailers and foodservice staff; and
- importers and exporters of food products.

At the end of the course you will:

- Know the scope of the Standard requirements, understand what companies may be certificated to the Standard, and what products are applicable for certification.
- Understand the format and structure of the requirements of the Standard.
- Be able to identify what is needed to comply with each requirement.
- Know how to prepare for an audit to the Standard.
- Be aware of the scope and duration of an audit.
- Understand the procedure for closing out corrective actions on non-conformities.
- Be familiar with how an audit will be reported and how companies will be certificated.

Due to circumstances surrounding COVID-19 this session has been approved by BRCGS to be delivered in a Virtual Format. All content utilized in this course was designed for a face to face session.

Packaging

Packaging - Issue 6 Sites Training

Course outline:

This two-day course has been designed to enable delegates to gain a full understanding of the requirements of Issue 6, including the objectives of fundamental clauses and statements of intent.

Delegates will learn how audits against the Standard operate including preparation, the audit, non-conformities, corrective actions and certificate issue.

A good technical knowledge of the packaging industry is essential.

Delegates should download and read a copy of the Standard before attending this course. The Standard is available to download free of charge from the BRCGS Bookshop.

totrain Virtual Courses

The course is aimed at:

- manufacturers; and
- technical and quality managers.

At the end of the course you will:

- understand the background and benefits of the Standard;
- be able to outline the details of the audit and certification programme;
- determine audit scope and plan the audit;
- understand what it is to have an audit, non-conformities and corrective actions; and
- know how to report issues and use BRCGS resources.

Due to circumstances surrounding COVID-19 this session has been approved by BRCGS to be delivered in a Virtual Format. All content utilized in this course was designed for a face to face session.
